Outline for Creating WoS Excel Summary Files

- 1. Connect to your university source for Web of Science. You may need to use school VPN.
- 2. Go to https://www.webofscience.com/wos/woscc/basic-search
- 3. Click "RESEARCHERS" tab.

| Screensho | ot | 1 |
|-----------|----|---|
|-----------|----|---|

| Discover m | nultidis d's most trust | ciplinary content ed global citation database. | |
|------------------------------|----------------------------|---|----------------|
| DOCUMENTS | DOCUMENTS | | |
| Name Search Last Name* Lynch | × | First Name and Middle Initial(s) | : |
| + Add name variant | | | X Clear Search |

Enter the last name and first name and click "Search." Potential complications at this stage:

- a. For very common names, the search engine will ask for further details (e.g., country and institution) before it runs the search. (see screenshot 2 below)
- b. More than one person may have the same last and first names; therefore the search can produce more than one record. In these cases, choose the relevant record.
- c. There can be more than one record for the same person. In these cases, choose all that apply and hit "View Combined Record."
- d. Click on your name in the list.

4. You should now see a view like Screenshot 3. In the lower right-hand corner, click on "View citation report." It is useful to look at the report that lists publications from most to least cited to be sure that nothing is missing (or no articles are from someone else with the same name).
